

# Contractor Pass

The SG World Authorisation to Work system helps you control the access of contractors to your site and assists you in fulfilling your commitment to safe working practices.

- > Issues an authorisation to commence work.
- > Highlights high risk activity such as hot work, electrical etc and the need for any additional permits to work.
- > Works alongside SG World's Permit to Work product including our 14 standard Permits or you can design your own.
- > Notifies contractors of the sites health and safety policy.
- > Helps you meet the HSE guidelines on managing contractors and safe working practices.
- > Provides an up to date record of contractors on site in case of emergency.
- > Helps you verify contractor invoices.
- > Individually designed to meet your specific requirements.
- > Organisations using large numbers of contractors may also like to consider Safe-work and, our contractor management software, which does all this and more.
